Precipitate Completes Detailed Soil Sampling Program within Lithocap Zone of the Pueblo Grande Gold Project in Dominican Republic

Vancouver, B.C. – April 11, 2019 - **Precipitate Gold Corp.** (the “Company” or “Precipitate”) (TSXV: PRG) is pleased to announce it has completed the previously announced geochemical survey conducted within the Lithocap Zone of the Company’s 100% owned Pueblo Grande Project located three kilometres west of Barrick’s world-class Pueblo Viejo gold-silver mine in the Dominican Republic.

The completed geochemical surveying program represents Precipitate’s first phase of field work at the newly acquired project and consisted of extensive and detailed soil sampling (more than 1,250 samples) within the highly prospective Lithocap Zone. Samples have been submitted for laboratory analysis and will be reported upon receipt. Results will be utilized to better interpret and understand the Lithocap Zone for follow up ground work, geological mapping and drill target delineation.

Jeffrey Wilson, Precipitate President & CEO, stated, "We are pleased to complete our first phase of work at the new Pueblo Grande project. Completion of this detailed geochemical survey provides the Company with greater technical data from within this large target area and assists in facilitating guidance for our next phases of ground work in advance of delineating targets for our first phase of drilling. This new geochemical data, combined with the ground magnetics and detailed geological mapping planned for the coming weeks, will provide a sound basis for plotting our initial drill targets in the months ahead."

This news release has been reviewed by Michael Moore P. Geo., Vice President, Exploration of Precipitate Gold Corporation, the Qualified Person for the technical information in this news release under NI 43-101 standards.

About Precipitate Gold:

Precipitate Gold Corp. is a mineral exploration company focused on exploring and advancing its mineral property interests in the Pueblo Viejo Mining Camp and Tiroo Gold Trend of the Dominican Republic. The Company also maintains the Reef property located immediately adjacent to Golden Predator’s 3 Aces Project in the Upper Hyland River area, Yukon Territory. The Company has entered into an Option to Purchase Agreement with Golden Predator whereby Golden Predator can earn a 100% interest in the Reef claims by making certain staged payments in cash and shares and warrants. Precipitate is also actively evaluating additional high-impact property acquisitions with the potential to expand the Company’s portfolio and increase shareholder value.

Additional information can be viewed at the Company’s website www.precipitategold.com.

On Behalf of the Board of Directors of Precipitate Gold Corp.,

“Jeffrey Wilson”

President & CEO
